**Attachments:** RE: USEPA Assessment: 103 Kisco Ave Access

Ed:

As you know, the EPA wants to conduct site inspections of the former Richard's Home Center site and the Village owned parcel on Railroad Avenue. They requested consent to enter the Village/public property and have obtained consent from the owner of Richard's Home Center. As I indicated in my email of 7/16/15 (attached), I have no issue with them gaining access. They came to my office this morning seeking the signed consent form. As I could not get in touch with either you or the Mayor, I signed the form for the limited purposes of taking photographs. They will not be undertaking sampling/investigation until the week beginning August 3<sup>rd</sup>. I indicated that if the Village had any issue with access by the EPA that I would have you reach out to them to rescind the notice before 8/3. While I understand that they have provided you a copy of the insurance certificate already, I obtained another copy today.

I have included Dan Gaughan on this email for reference should there be further need to reach out to him.

Whitney
